

Amala Jaison

My name is Amala Jaison, and I am a fourth-year PhD student in Physics at the University of Manitoba, where I work on neutron electric dipole moment experiments. I have experience teaching and grading undergraduate physics labs, and I enjoy helping students understand math and physics concepts in a clear and approachable way.

Subjects:

- Math (any grade level, including high school and university courses like calculus, algebra, & general problem solving)
- Physics (any grade level, including high school and university courses like introductory mechanics & electromagnetism)

Location:

In Person: Regent & Transcona areas preferred

Online

Contact:

amalajaison@gmail.com

Anish Madaan

Hi,

I am Anish. I am a recent graduate in Physics. I love tutoring and have plenty of experience. I can tutor both online and in person.

Subjects:

- Physics (all levels up to first-year university)
- Math (all levels up to first-year university)
- Science (all levels up to grade 12)

Location:

In Person: Winnipeg South and Southwest

Online

Contact:

Arij Alameh

My name is Arij Alameh. I am a PhD student in physics at the University of Manitoba. I tutor high school math and physics and been tutoring for the past 4 years. It is a one-on-one session with the student, I offer in person and online sessions depending on the student's preferences. I am fluent in French, English and Arabic.

Subjects:

- Math (high school & university levels, including MATH 1500)
- Physics (high school & university levels, including PHYS 1020 & 1030)

Location:

In Person: Pembina highway near the UofM, usually at my home address

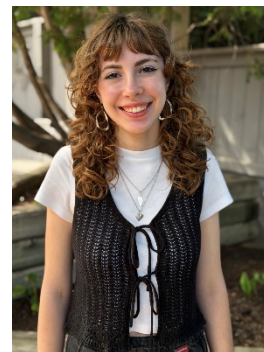

Contact:

204-698-1528

Ayla Thomas

My name is Ayla and I am a second-year physics student at the University of Manitoba! I have always been passionate about science and math education, and I love helping students succeed at finding their motivation and achieving their academic goals. In my free time, I enjoy photography and playing guitar. I hope we can work together to break down difficult concepts and build your confidence!

Subjects:

- Math (all high school math & AP calculus)
- Physics (high school)
- Computer Science (high school, AP, & first-year university)

Location:

In Person: Tuxedo, River heights, Bridgwater, Charleswood, Linden Woods, Whyte Ridge

Online

Brijesh Patel

Hi! My name is Brijesh, and I'm a Computer Science and Physics student at the University of Manitoba. I have experience tutoring physics one-on-one and in groups, helping students understand difficult concepts, work through assignments. And prepare for exams. I focus on breaking down challenging topics into simple. Understandable steps while helping students build their problem-solving and analytical skills. Whether you're struggling with a specific concept or looking to strengthen your overall understanding, I'm happy to help!

Subjects:

- Physics (high school and first-year university)
- Math (high school and first-year university)

Location:

In Person: South Winnipeg

Online

Contact:

patelbv@myumanitoba.ca

Jack Bialek

Hello. I'm a math, physics, and gaming nerd who loves to help others improve their skills. I'm currently pursuing my undergraduate degree in math-phys honors, and graduated high school with an international baccalaureate diploma. I'm proficient in both fields through a 2nd year level and have been tutoring periodically since high school, including currently with OPUS. I'm also familiar with competition style content going beyond the standard curriculum.

Subjects:

- Physics (first-year university)
- Math (first-year university)

Location:

In Person: East Kildonan / Transcona area, or at the UofM

Contact:

bialekj@myumanitoba.ca

Juan Quiceno

Hello! I'm currently studying physics and enjoy helping others learn math and physics. Having recently worked through many of the same topics myself, I understand the challenges students face and can explain those concepts in other ways for you to understand. Whether you need help with homework, exam preparation, or understanding difficult material, I'd be happy to help you reach your academic goals.

Subjects:

- Physics (high school & first-year university)
- Math (high school & first-year university)

Location:

In Person: South end of the city, (Fort Richmond, Waverly heights, Kirkbridge area, etc)

Online

quicenoj@myumanitoba.ca

Nazanin Roshanshah

This is Nazanin Roshanshah. I am a PhD candidate in Physics and Astronomy at the University with over 15 years of tutoring experience with 100+ students at secondary and university levels in physics, mathematics, and related subjects.

Subjects:

- Physics (high school and university levels)
- Mathematics (calculus, linear algebra, mechanics)
- Statistics and data analysis
- Python programming

Location:

In Person: Anywhere in Winnipeg

Online: Across Canada

Param Upadhyay

I'm Param as in parameter, and I work broadly in the field of theoretical cosmology, focusing on probes of physics in the very early universe. I did my bachelor's in physics and philosophy at Tufts with a year spent at Oxford. I'm currently in the second year of my master's at UM. I've tutored a lot of people in a lot of places, including teaching philosophy in prison! I can assure you physics is not quite as intense.

Subjects:

- Physics (Especially intro courses)

Location:

In Person: Near Corydon or UW Area.

Puja Mandal

I am an international graduate student in the Department of Physics and Astronomy at the University of Manitoba, currently pursuing my MSc and working in high-energy physics. I have a strong interest in theoretical physics, science, and teaching, and I currently work as a Teaching Assistant for mechanics.

I have also previously tutored physics students through the online tutoring platform Educatify. I enjoy helping students understand scientific concepts and develop confidence in problem-solving. Outside of academics, I enjoy photography and dancing.

Subjects:

- Physics (high school and undergraduate)
- Math (high school and undergraduate)

Location:

In Person: Anywhere in Winnipeg

Online

Tyler Dyck

Hello my name is Tyler Dyck, I have a bachelor in general science and am currently an education student at the university of Manitoba. I have a passion for education and plan to become a high school math and science teacher. I had 3+ years of tutoring experience both high school and university level math and physics.

Subjects:

- Physics (high school, first- & second-year university)
- Math (high school, first- & second-year university)

Location:

In Person: Fort Garry, St. Vital, Assiniboine, St. Boniface, most of Winnipeg

Online

Contact:

tyler.w.dyck@gmail.com

Zeeshan Asif

I am a PhD candidate in Physics and Astronomy at the University of Manitoba, with an MS in Physics (Gold Medalist) and a BSc in Mechanical Engineering. I have two years of teaching experience as a teaching assistant at the U of M, leading tutorials and helping first-year students with physics and math. I enjoy working patiently with students to build both their skills and their confidence.

Subjects:

- Physics: high school, first- & second-year university (introductory physics such as mechanics and electricity & magnetism)
- Math: high school, first- & second-year university (pre-calculus, calculus, and linear algebra)

Location:

In Person: Fort Richmond, University of Manitoba, Fort Garry, Waverley Heights, Whyte Ridge, Grant Park, St. Vital, and Osborne Village.
